

K-LOVE radio not only provides wholesome, positive music that my family can safely listen to, but provides encouragement, guidance, and personal prayer and counseling to listeners. K-LOVE fills a niche and need that secular and public radio do not or cannot provide to the public. I would be a great loss to displace this service to communities by an LPFM broadcaster providing other programming. Please do not support LPFM and take away a most important, wholesome contribution to communities across America.
